

Rapunzel's lullaby

The moon comes up, the sun goes down
And still the world keeps turning round and round
The world's a disgrace, it's a scary old place to be
But have no fear, you're safe up here with me
The moon comes up, the sun goes down
No more fear, high up here, above the ground
You will see, you and me, safe and sound.

Many thanks to Mike Kenny for his words
